

MEMORANDUM FOR: DCI

FROM: EA/DDCI

Understand that [redacted] is providing you^{25X1} separately material on the IG/CM and O'Malley's Committee. O'Malley will also be able to brief PFIAB on what the Committee has been up to. John advises that the Bross Commission is moving along and probably will have its report ready by mid-November. He does not think PFIAB should have a crack at that until you have a chance to digest it first.

MEMORANDUM FOR THE RECORD

1. Martin Anderson, Clare Boothe Luce and Seymour Weiss have asked Edward O'Malley, Assistant Director, Intelligence Division/FBI, and [redacted] to meet with them at 1000 and 1100 hours, respectively, on 5 October to discuss recommendations the PFIAB is making to the President about counterintelligence organization and responsibilities.

25X1

2. According to Norman Wood, PFIAB Executive Director, the Board has reviewed a draft letter to the President on the organization of CI functions to face the hostile intelligence threat. The letter, which the Board did not approve, concluded that:

- USG counterintelligence efforts are effective and organized correctly.
- Cooperation between intelligence agencies has improved significantly over the past two years.
- Present CI structure is sensible, particularly when one considers the political implications of creating a single CI agency or of giving CIA total domestic or the FBI an overseas CI role.
- Much of the credit for improvements in the USG's CI capabilities are due to the President's and DCI's active leadership.
- Some weaknesses remain, caused primarily by understaffing, underfunding, and an underappreciation of CI.
- No changes in the structure of the counterintelligence community were recommended.

3. The Board referred the letter back to the Anderson Task Force for review and strengthening and consideration of specific actions for the President's approval.

4. The Task Force wants [redacted] and Edward O'Malley to help it formulate recommendations on what the Board can say to the President which will result in a meaningful contribution to counterintelligence.
